Hourly Rounding

To help meet your care needs, your nurse or PCA will check on you at least every hour. These hourly checks, sometimes called hourly rounding, are times we will:

- Check on you and how you are feeling
- Help you move or change position
- Check on your comfort and pain control
- Help you get up to go to the bathroom

Before we leave your room, we will be sure that you have your call light within easy reach. We will be sure you have your water, telephone and any personal items where you can reach them.

Please feel free to call your nurse or PCA if you need anything at other times. Use your call light or call the phone numbers listed on your white board.

If you have any questions or concerns about your care, please call the charge nurse so he or she can work with you to address them.

We want to be sure we address your needs and concerns. Please let us know if there is anything we can do for you. You may also get a survey after you go home. We hope you will take the time to give us your feedback. We use the feedback to recognize our staff and to know how we can improve.
