

Patient Education Training – Searching the Patient Education Materials Library

With almost 3,000 documents in the patient education materials library, and hundreds more available through the Health Information Translations web site, it is important to know how to use the searching and filtering tools available to successfully find relevant materials.

A simple keyword search begins your quest. For best results, use more specific rather than general keywords, or use multiple keywords.

Search Documents

Once you have conducted your initial search, there are filtering tools available to further refine the results.

The Topics filter may be used to narrow the results to specific medical topics. Additionally, the Language filter may be used to narrow the results to those documents available in one of 17 languages available. NOTE: Not all documents are available in all languages.

Filter by Topic	--All Topics--	Select Other Language	English	Language	Size
Heart Problem	Birth Control		English	English	712 KB
Evaluation for Medicines for Minimally Invasive Resources for Sleep Apnea and All About the Heart About Heart Failure The Do's and Don'ts of Home Activities Understanding Smoking and Cigarettes Types of Cardiac Balloon Pump Temporary Pacemaker Warning Signs Are You at Risk for Ablation Cardiovascular Transient Ischemic Beta Blockers Your Cardiac Care High Blood Pressure Cardiovascular Angiotensin-Converting Enzyme Inhibitors Benefits of Quitting Tobacco Exposure to Tobacco Smoke Aspirin	Blood and Marrow Transplant		American Sign Language	English	82 KB

				English	85 KB
				English	265 KB
				English	227 KB
				English	225 KB

Once the Language filter has been applied, the language switch is available on individual documents, which enables viewing the document in either English or the selected language. This is to help clinicians work from an English document while interpreters can assist patients and family members in their native language.

Filter by Topic	--All Topics--	Select Other Language	Chinese Simplified
Title	Language	Size	
Heart Attack	--select a language--	385 KB	
Heart Cath and Heart Angioplasty	Chinese Simplified	72 KB	
Coronary Artery Disease (CAD)	English	44 KB	
Angina	--select a language--	24 KB	
Toothache	--select a language--	16 KB	
High Blood Pressure	--select a language--	27 KB	
Asthma	--select a language--	80 KB	
Stroke	--select a language--	26 KB	

To see if a particular document is written in more than 1 language, go to the Select Other Language box again, and each document can be viewed in the total languages available.
